Abstract

An atmospheric pressure plasma jet (APPJ) using medical-grade argon gas as the carrier gas was developed and used to investigate wound healing in small animals com-bined with Binahong

Cited by 1 document

Accelerated healing of chronic wounds under a combinatorial therapeutic regimen based on cold atmospheric plasma jet using contact and noncontact styles

Darmawati, S. , Nasruddin, N. , Putri, G.S.A. (2021) *Plasma Medicine*
