Dear Mr Hidayat,

Thank you for your submission.

However, after a preliminary assessment, we have the following comments. A number of changes must be made before we can send it out for review, especially the presentation, the language (some grammatical errors found and a few missing words), and **MAJOR issues in references (esp. in text)**. You must follow APA format strictly.

1. Format the paper **strictly** according to the template (attached). The best way is to copy your content in the template. **Include the orcid of all authors in their affiliation.**

2. Follow APA style strictly for the references. References must **strictly** follow APA otherwise publication will be delayed.

<http://www.apastyle.org/>

http://student.ucol.ac.nz/library/onlineresources/Documents/APA_guide_2015.pdf

An APA Manual is also attached for your convenience.

3. Check if references are mentioned in the text (and vice-versa). The paper must have at least 30 references with a good mixture of old, recent and very recent references and also a good mixture of regional and international sources. **Your paper needs a handful of very recent references (2018-2020).**

Failure to correct the references will delay the review process.

Everything matters to us when it comes to references (a space, a comma, a full-stop, a hyphen, a bracket, upper case/lower case, etc, etc). There are many such issues in the paper. Please check with the guidelines (attached).

Any non-English words (esp. paper titles in references) must have their equivalent inside square brackets []. Names of conferences and titles of papers must be translated to English and placed in square brackets []. Names of books and journals must not be translated.

Names of academic journals can be left in their original form.

References must be ordered in alphabetical order.

Paper must contain an adequate number of international references.

4. Mention the doi of each reference where available.

a. Go to <http://search.crossref.org/>

b. Copy and paste the title of the paper in the search box

c. Press the Enter key.

d. Copy and paste the doi back to the paper (into the reference section) if one is available. DOI may not be available for some of the references. This is fine.

e. There are two ways you can write the doi (1)

doi:10.1037/a0028240 or (2) <http://dx.doi.org/10.1037/a0028240>

If doi is not available, provide another url (web link) for the
