# Tri Hartiti :

We have reached a decision regarding your submission to "Open Access Macedonian Journal of Medical Sciences, "LITERATURE REVIEW: RELATIONSHIP OF SPIRITUAL CARING WITH LIFE QUALITY FOR HEMODIALYSIS PATIENTS ".

# **Our decision is: Revisions Required**

-----

### **Reviewers Summay:**

### complete paper (2500-3000 words without references)

**#WU1#Title**: We suggest title : Relationship Of Spiritual Caring With Quality Of Live For Hemodialysis Patients : a Literature Review

**#WU2#Abstract**: Please use abstract flow as in journal templates such as AIM, METHODS, RESULT and CONCLUSION

### Very essential things missing in the article. Please include the following

• Objective and Research questions

There are objectives or RQs of your research. Please add a **problem statement** where you can discuss the purpose/ objective of this study

### **#WU4#Introduction**

- ✓ It is advisable to start with the beginning of the paragraph with terminology and problems related to spiritual caring in health care.
- $\checkmark$  Are there quality of life problems with spiritual caring?
- ✓ Show a common thread linking the phenomenon of spiritual caring problems with quality of life in hemodialysis patients ... we suggest that it should be supported by the results of previous research studies as follows:
  - 1. Mashitah, Musthika Wida. "Quran recitation therapy reduces the depression levels of hemodialysis patients." International Journal of Research in Medical Sciences 8.6 (2020): 2222-2227.

# **#WU5#Research Design**

The research method uses the *PICO Framework strategy* but it still does not describe the process and stages in conducting a literature review of journals that will be discussed .... suggestions can be made to explain the literature review method as follows:

- ✓ Stage 1: Explain Identify problems and research questions that will be an issue in the literature review and will be discussed
- ✓ Stage 2: Explain the systematics of the database search process and the location of the articles to be reviewed...including inclusion criteria and exclusion criteria for any articles, how to screen and select journals from the artillery database data base to 9 selected articles..give reasons and the explanation.....
- ✓ Stage 3: Description of the data collection process from the required article articles.
- ✓ Stage 4: Explain the evaluation of the journal selection process including the quality of articles from the aspect of the journal index level as in the existing table
- ✓ Stage 5: Data analysis and an overview of the results of the literature review from the journals discussed

# #WU6#Results

The results of the review process are still duplicated with research methods .... In order for the results of a systematic literature review, suggestions should be made for the following explanation:

- ✓ Describe 9 articles based on the identification of research findings and their relationship to spiritual caring and quality of life of patients on hemodialysis
- ✓ Definition and explanation of the spiritual dimension of caring in the application of patients undergoing hemodialysis therapy
- ✓ Definition and explanation of the dimensions of quality of life in patients undergoing hemodialysis therapy
- ✓ Characteristics of quality of life and spiritual caring interventions for patients undergoing hemodialysis therapy

### #WU10#Discussion

The construction of the discussion in paragraphs 1, 2, 3 and so on has not described the findings of theories, facts, opinions of researchers and problem solving of the spiritual caring relationship and quality of life in patients with hemodialysis.

- ✓ The discussion is not yet structured and does not refer to the purpose of the article ...it is better to refer to the results and findings of the review article...please refer to the systematic improvement of the methods and results
- $\checkmark$  Please use the results of improved methods and results as a basis for conducting discussions
- ✓ We suggest adding supporting research articles to sharpen the findings...you can add some suggestions for research results as follows:
