The screenshot shows a software interface for creating interactive presentations. The main workspace displays a slide with a yellow background and a row of trees at the bottom. The slide contains four illustrations, each with a speech bubble: a boy waking up with 'Good Morning', children playing with 'Good Afternoon', a sunset with 'Good Evening', and a girl sleeping with 'Good Night'. The interface includes a top menu bar (Edit, Insert, Template, Animation, Interaction, Page), a toolbar with various editing tools, a left sidebar with a 'Navigate' panel showing a sequence of slides, and a right sidebar with a 'Property' and 'Layer' panel. The Windows taskbar at the bottom shows the search bar, task icons, and system tray.

The screenshot shows the same software interface as above, but on a different slide. The slide has a yellow background and a row of trees at the bottom. The title is 'What's the Meaning of "Good Night" ?'. Below the title are three multiple-choice options in blue boxes: 'Selamat Siang', 'Selamat Malam', and 'Selamat Pagi'. To the right of the options is an illustration of a city skyline at night with a crescent moon and stars. The interface elements (menu bar, toolbar, sidebar, taskbar) are consistent with the previous screenshot.
